COVERS THE BEAR RIVER VALLEY LIKE A BLANKET

VOL. XII

GARLAND, UTAH Thursday, November 17th, 1917

No. 42

## Sugar Company Distributes \$615,000.00 This Month

Over a Half Million Dollars Paid Out by Garland Sugar Factory Between November 10th and 15th.

Through the various banks of the county, the Garland office of the Utah-Idaho Sugar Co. issued checks this month amounting to \$615,000.00. Of this amount, beet-growers received \$490,000.00—payment for seventy thousand tons of beets. The 10th and 15th of each month during the campaign are known as "pay days," today being the monster pay day. This large amount of money was distributed thus:

To Beet Growers	\$490,000.00
October Pay Roll	25,000.00
Expenses and Sundry Bills	100,000.00
Total	\$615,000.00

The circulation of this money throughout the valley will do a world of good and is reason for general Thanksgiving.

## Getting at the Sugar Supply

(From Box Elder News.)

For the purpose of getting in closer touch with the consumer and impressing upon him the necessity for careful conservation of the sugar of the country, the Government Department of Food Conservation has framed a number of questions to the public generally and through the Food Demonstrator for Box Elder county, Miss Annie Christensen, has asked that these questions be given publicity. The people are to take them seriously and answer them by carrying out the suggestions and request which each one makes.

The following are the points which the department wishes to emphasize:

- How much sugar is served on your table in a week?
- What is the average amount which each person uses in tea and coffee, cocoa or chocolate?
- Does your family use sugar on cereals?
- Do you add sugar to the baby's cereal and cup of milk?
- What kind of dessert do you serve most frequently?
- Will each member of the family who uses more than six tablespoonsful of sugar a day—including the amount used in cakes, puddings, preserved fruits, etc., agree to reduce the amount to four tablespoonsful?
- Will you for one month substitute dishes which contain little sugar in place of cakes, puddings, etc? For instance, use molasses and syrups in sweetening; use salads freely, and use the canned fruits which you put up last summer in place of such dishes as cakes and puddings.
- Will you agree to use fresh fruits, raisins, dates, figs, nuts, popcorn and similar things for your holiday gatherings and cut down on candies and dishes which call for sugar?
- If there are five persons in your family will you agree to limit the sugar used in all cooking and served on your table in any form, including candy, to one pound (two cups) a day for the remainder of the year? This allowance will give approximately three ounces a day per person. For each member of the family over five and six teaspoonsful additional, for less than five reduced the amount six tablespoonsful for each person.

## The O. N. O. Club

The O. N. O. Club met Monday evening, November 12th, at the home of Miss Iris Rhodes. Sewing for the Red Cross work was the main feature. The sewing was in charge of Mrs. L. W. Preston, president of the primary association, Mrs. Samuel Blair and Mrs. J. G. Rhodes. During the social hour, a very interesting musical game was engaged in. Miss Ione Felsted rendered several pleasing musical selections. Delicate refreshments were served.

Those present were the Misses Marion Stagner, Nellie Barnard, Annie Larson, Winona Cockayne, Iris Rhodes, Mabel Holmgren, Vera Edwards, Hazel Edwards, and Mesdames L. W. Preston, Samuel Blair and J. G. Rhodes. The club will meet at the home of Miss Ione Felsted November 26th.

## WEATHER FORECAST FOR STOCKMEN.

Local office, 1103 Boston building, Salt Lake City, Utah, Nov. 5, 1917.

The chief of the weather bureau desires that the special forecast of cold, stormy weather be placed within reach of every sheepman and cattleman that can take advantage of the information.

Therefore every stockman who can, in any way, protect his stock against the weather upon receipt of forecasts is invited to give his name and grazing location to this office, stating from what central point the forecasts can most conveniently be received by him when issued by telegraph or telephone, whether from the telephone company, Forest Service official, newspaper office, bank, or other institution.

We should also know how many hours' or days' advance notice is required, what weather elements are most disastrous, and the kind and approximate number of animals involved.

This service will be at government expense as far as practicable.

J. CECIL ALTER,  
Meteorologist.

## Another Ford Turns Turtle

John Ryan, accompanied by his wife, Fred Garrett and Mrs. A. C. Pierson and sons, motored to Hyrum last Sunday in A. O. Pierson's Ford. On the return trip, at the railroad crossing near Collinston, at about 7 p. m., Mr. Ryan, who was driving the car, made a miscalculation in the sudden turn of the road that crosses the track there, and over the embankment went the Ford. The lights pointing straight ahead partly confused Mr. Ryan, who was unable to see the road or the sharp turn. The car rolled down the hill and Mr. Ryan sustained a severe cut on the head and was otherwise bruised. Mrs. Ryan received a broken rib, had her shoulder dislocated and was quite badly bruised. Fred Garrett, Mrs. Pierson and the lads escaped injury. The injured were taken to the home of Hyrum Jensen of Collinston where Dr. Wach dressed their wounds. They were brought to this city later and Dr. J. E. Day has been caring for them. Mr. Ryan was considerably weakened by the loss of blood. It is fortunate that they were all dilled.

## New Circular on Vegetable Storage

The Utah Experiment Station has just published Circular No. 26, on "Storing Vegetables for Winter," by Dr. M. C. Merrill, horticulturist. The following general headings are discussed: (1) Fundamental Principles Underlying Storage Practice; (2) Storage Requirements; (3) Types of Storage; and (4) Storage Conditions for Different Types of Vegetables.

For generations the human family has been storing away its surplus crops in the season of plenty for use during the season when nature is non-productive. In that time certain practices have been developed and have been taught by father to son for hundreds of years. Despite the fact that the subject is so important, comparatively little research work has been done during all that period to determine the best conditions for the storage of the surplus produce. We are, therefore, even now using many of the methods of our forefathers, a fact which speaks highly for their utility. The call is becoming more and more persistent, however, for more definite and reliable information along this line, and it is hoped that the time is not far distant when the Experiment Stations of the country will have additional facts and data of value pertaining to this subject. The great goal that is sought, of course, is the prevention of all loss and waste from our pits and cellars due to improper conditions of storage.

In this circular, which should prove of especial interest and value to farmers and to the "war gardeners" of this year who are storing away the products of the soil, the dominant idea seems to be the giving of the "why" of vegetable storage as well as the "how." The various methods now in use are discussed, as also the best conditions under which the produce should be stored, as far as known at present.

Free copies may be had by addressing a card to the Utah Experiment Station, Logan, Utah.

## Quarterly Conference

The quarterly conference of the Bear River stake will convene at the stake tabernacle in this city next Saturday and Sunday, November 17 and 18. Elders Heber J. Grant and Rudger Clawson of the quorum of twelve apostles, will be in attendance. It is expected that a reorganization of the stake presidency will be made at this conference. Priesthood meeting Saturday at 2 p. m.

## RELIEF SOCIETY CONFERENCE

Saturday, November 17th, at 10 a. m., a conference of the stake Relief Society will be held at the stake tabernacle. Sister Susie Y. Gates of the Relief Society general board, will be present. The sisters will take up Red Cross work in the afternoon, the meeting place to be announced at the Saturday morning session.

## Results of Recent Election

The following are the various incorporated cities and towns of the county show the newly elected officers of the respective palces, as follows:

**Brigham.**  
Mayor, John W. Peters; councilman, 4-year term, C. O. Roskelley; 2-year term councilmen, Sperry W. Lawson, John W. Phillips, A. M. Hansen, and J. C. Fredericksen, holdover; recorder, Noble M. Fishburn; treasurer, Miss Trieste Box.

**Garland.**  
Mayor, Loren W. Preston; councilman, 4-year term, John Richards; councilmen, 2-year term, John W. Chambers, Jr., John W. Garrett, R. T. Shaw; recorder, Ezra Jensen; treasurer, Mrs. M. D. Evans.

**Tremonton.**  
Town president, Charles McClure; board of trustees, Matthew Bear, William Stone, David Holmgren, Dr. J. A. King.

**Willard.**  
Mayor, A. B. Taylor; councilman, 4-year term, John B. Finn; councilmen, 2-year term, Frank I. Lowe, Thomas N. Brunker, Elias Tamm, O. H. Ward, holdover; recorder, C. P. Elsey; treasurer, Mrs. Mary E. Ward.

**Corinne.**  
Mayor, W. F. House; councilmen, A. L. Shaw, C. G. Adney, William Buswell, A. C. Murphy; recorder, W. R. Holmes; treasurer, Mrs. C. F. Shaw.

**Bear River City.**  
Town president, Wm. P. Jensen; board of trustees, Peter M. Anderson, Anton Christensen, Clarence Anderson, Peter S. Jensen.

**Mantua.**  
Town president, Joseph B. Jepson; board of trustees, Michael Scow, Ole Olsen, M. C. Nelson, Lucius Hansen.

**Fielding.**  
Town president, R. E. Sainsbury; board of trustees, E. M. Harris, C. Leo Pack, George Godfrey, Edward Haskell.

**Perry.**  
Town president, Richard Peters; board of trustees, Philip Quayle, Roy White, Hyrum Thorn, A. S. Williams.

**Honeyville.**  
Town president, Leo Hunsaker; board of trustees, Hyrum Boothe, Abinidi Tolman, Seth Wheatley, Heber Hunsaker.

## Thanksgiving Proclamation

Thursday, November 29th, is Thanksgiving day. Following is the proclamation issued by Governor Simon Bamberger:

"Annually it has been the custom of the people of Utah to follow the beautiful precedent established by the Pilgrim fathers to set aside a day in the autumn of each year to return thanks to God for the bountiful fruits of the harvest.

"In the midst of war, when depressing news of conflict and suffering assails, we may still find much in the State of Utah for which to return thanks to a beneficent and divine providence.

"Let us assemble in our places of worship and thank God, as did the Pilgrim fathers, for the harvest. Never before have the fields and the orchards yielded in such abundance their grains and their fruits to the toil of the husbandman. Let us be thankful for the privilege of thus contributing to our beloved country and to the nations allied with ours the food-stuffs that will supply our armies in the field and in camp and ward off famine among the civilian population of the civilized world.

"Let us return thanks for the opportunities this terrible struggle brings to the United States to abolish tyranny, absolutism and the law of might, and to aid in the establishment of democracy in every civilized nation.

"Let us thank God for the safety from serious disaster of the brave men in the army and navy of the United States, and let us pray that this comparative safety may continue.

"While giving thanks to God for the manifold blessings we have received, let us also resolve that we will do our full duty toward our country in this hour of need, and subordinate all private interests in the interest of the government in this emergency.

"In view of these considerations and in conformity with proclamation of the Honorable Woodrow Wilson, president of the United States,

"I, Simon Bamberger, governor of the State of Utah, do hereby proclaim and set aside Thursday, November 29, 1917, as Thanksgiving day, and, in the observance of this holiday, I call upon all God-fearing, patriotic liberty-loving citizens to forego business and to gather in their respective places of worship to thank God for His bounteous blessings and to pray for the safety of the republic."

## Christmas Parcels

A Christmas parcel for every American soldier in Europe and a Red Cross Seal on every parcel, is the plan of the American Red Cross. Letters to that effect have gone out from the National Headquarters of the Red Cross to all the Chapters. The little Christmas stamps bearing the sign and the name of the Red Cross represent the anti-tuberculosis work of the Red Cross, through the various anti-tuberculosis societies in nation, state, and community.

Parcels intended for the soldier boys in Europe must be mailed not later than Nov. 15th. On that account the rules have been changed so that the Red Cross Seals may be sold before that date. The Seals will soon be on sale in every part of the state. In the meantime they may be ordered in any quantity from the state sales-manager, Frank W. LeClere, 120 East First South Street, Salt Lake City, Utah. The price is \$1.00 per hundred, one cent each.

## Utah Industrial Review

Pacific Coast Manufacturer & Industrial News Bureau.

Nov. 12.—Eureka—Utah Power & Light Co. building eight miles extension of its 11,000 volt line to serve the Tintic Drain Tunnel Company, which is driving a six-mile tunnel to drain water from existing mines and to open up new ore bodies. Twenty men are employed on this extension.

Ogden—Utah Canning Co. will enlarge plant one-third for 1918. Amalgamated Sugar Co. operating eight plants, in spite of labor shortage. Union Pacific gross earnings for September totaled \$11,863,258, an increase of \$878,666, net, after taxes, of \$4,277,550, a decrease of \$801,020. For the nine months gross earnings increased \$10,886,232, and net decreased \$1,255,635.

Centerville and Utah Lake Oil fields promise wide developments. Precious metals produced in Utah this year will aggregate \$900,000,000. Pacific coast shippards need 30,000 additional mechanics, principally wood and steel workers, who will command good wages and steady work.

Salt Lake—In order to increase power facilities, Utah Power & Light Co. is installing an additional underground cable between sub-stations for two miles. On account of the increased power load in the commercial district the company is arranging to install a number of transformer vaults beneath the streets to be used in addition to those in the center of the blocks. The company is building a new power line from West Jordan to Welby, to serve the latter town. Thirty men added to payrolls in past month. Canneries and growers have agreed on a profit-sharing basis for 1918. Fillmore has an oil boom with three standard rigs employed.

Utah sugar beet crop increased this year from 708,000 tons to 1,110,000 tons.

The single tax feature of the Non-Partisan League—to exempt farm improvements from taxation—is knocked in the head by their proposition to tax credits and mortgages. The farmer who makes improvements by using his credit would be taxed on them.

Payson—State Bank building here nearing completion.

Salt Lake—\$500,000 building permit let for new Deseret National bank. Will be 14 stories high.

Payson gets six blocks of street paving.

Boston capital to establish wool
